# 2001 Argentinien Crisis

The crisis proved that FLOSS:

Is a reliable technology

Is cheaper

Can solve the software upgrading cycle “pressure”

It can't be ignored any more

# Federal Government & FLOSS

ing in the government FAST!

o be two strategies:

lead (public software)

and stay on the 'neutral' strategy

ethink more than just one or two things

that software independence can be achieved with FLOSS and i
