Company Registration Portal

Centre of Registers and Information Systems

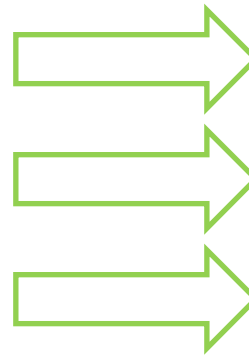

Company Registration Portal

Easy step by step process to register a new company

No need for Public Notary

No paperwork at all

In portal you can:

- Register a new Company
- Change information in Commercial Register
- File annual report

More information: <https://ettevotjaportaal.rik.ee/>

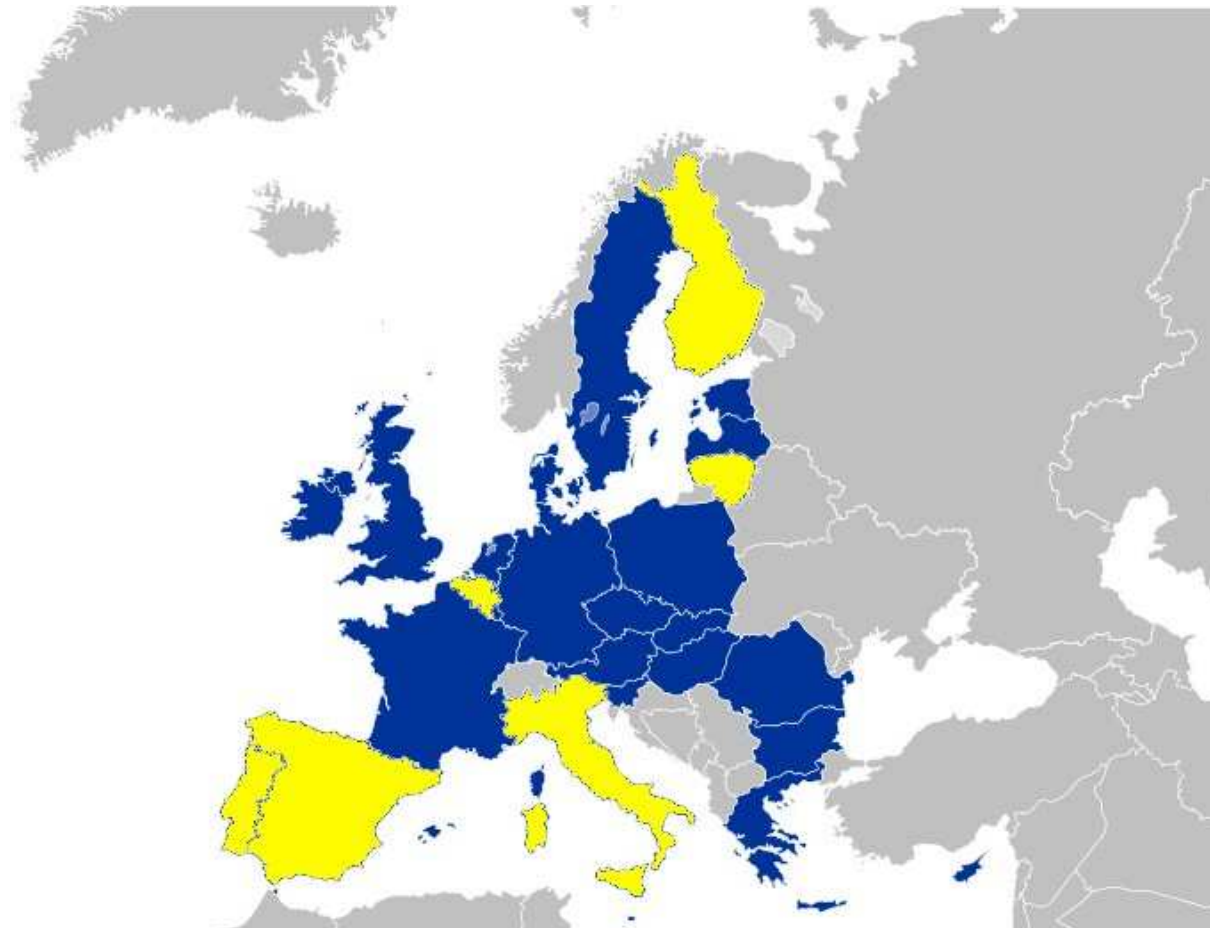

The screenshot shows the 'COMPANY REGISTRATION PORTAL' interface. At the top, it says 'e-äriregister RIK Centre of Registers and Information Systems'. Below that, there are navigation tabs: 'Opening page', 'Petitions for entries regarding alterations', 'Petitions for an initial entry', 'Filing of annual reports', 'Submission of the means of communication', and 'Modification of an activity'. The main content area is titled 'Preparation of the entry petition' and includes several sections for data entry:

- Trader:** Business name, Address, Capital (Share capital, Foreign currency).
- Persons in the entry:** A table with columns for Function, Code / Date of birth, Name / business name, Place of residence / seat, and Contribution.
- Normal regulation of the right of representation:** Fields for 'The member of the management board' and 'The procurator'.
- Specifications of the right of representation:** A table with columns for Type and Contents.
- Legal form:** Name, Private limited company.
- Financial year:** Start of a financial year, End of a financial year.
- Articles of association:** A table with columns for Date of approval, Date of alteration, Explanation, and PDF document.
- Persons outside the entry:** A table with columns for Function, Code / Date of birth, Name / business name, Place of residence / seat, and Contribution.
- Founders:** A table with columns for Code / Date of birth, Name / business name, Place of residence / seat, and Contribution.
- Means of communication:** Type, Contents.
- Planned principal activity:** EMFAK, Area of activity.
- Additional documents to be submitted with the entry petition:** A table with columns for ID, Type, Name, and Size.

At the bottom, there is a 'Check the details of the entry petition' button and contact information for the Centre of Registers and Information Systems.

Certificates we trust

Estonia co-operation with Portugal : <http://www.rik.ee/crep>

Full-scale project goals

- Easy to adopt authentication
- Easy to adopt digital signing
- Flexible technical framework
- Lower operational costs

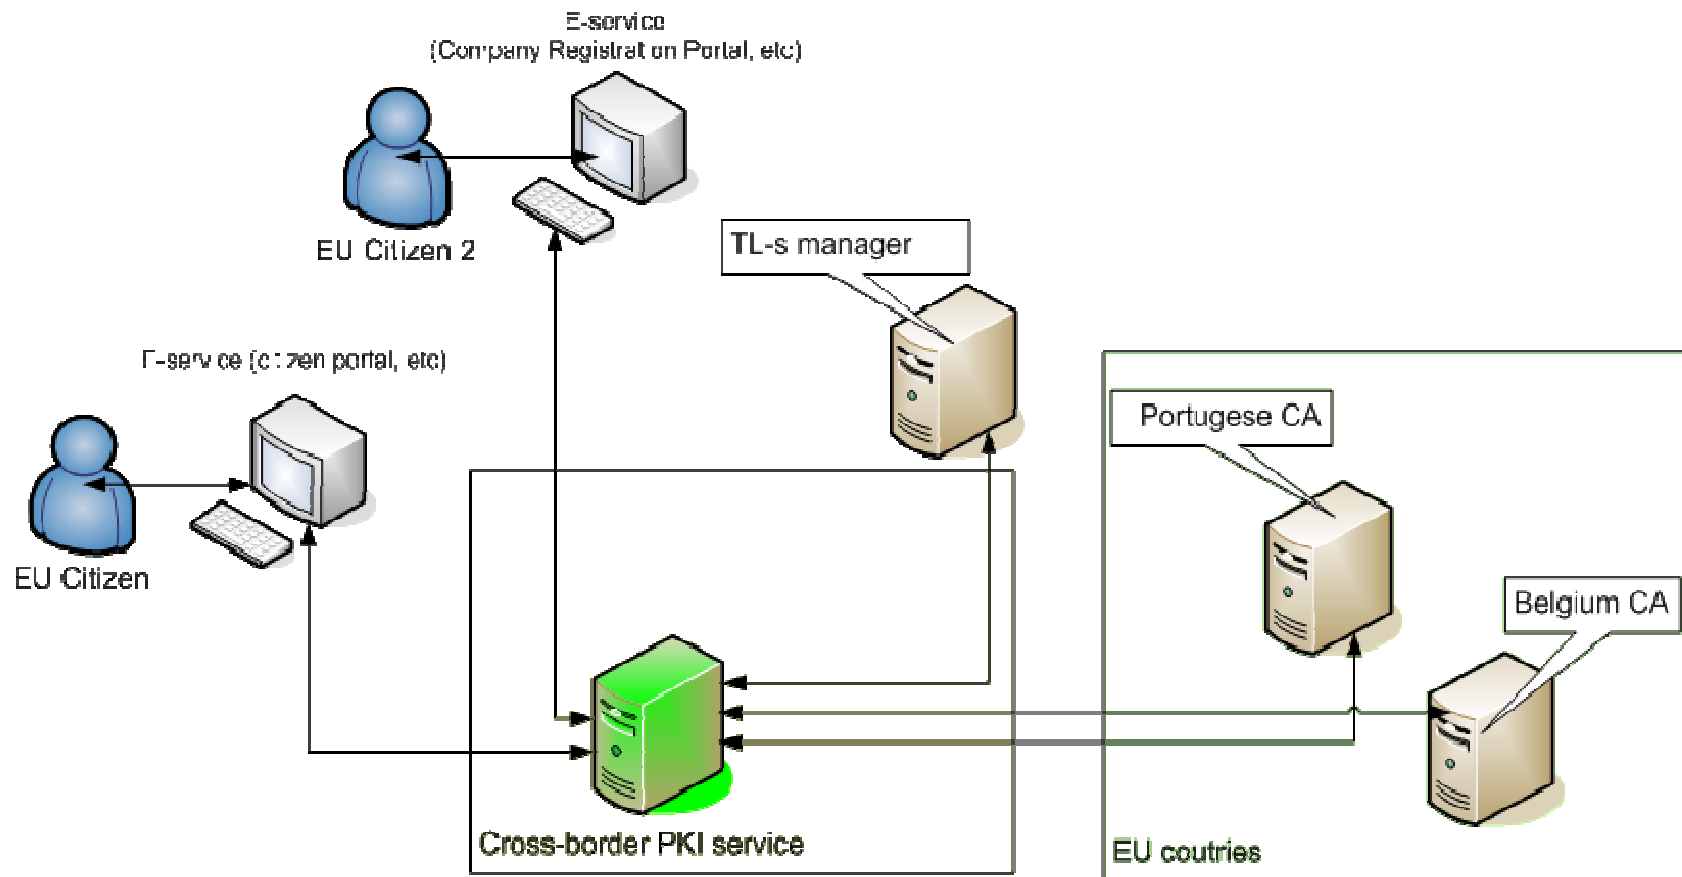

Legal view

- Analyze and adjust legal framework
- Process for evaluating digital certificates
- Process to collect and store legislation

Technical Framework

Flexibility and open source

- Under EUPL license
- Full documentation in English
- Development side support during pilot period

Thank you!
