We would like to invite you to the 4<sup>th</sup> CEN Industry Conference on Electronic Invoicing and Compliance, which will take place on the 18<sup>th</sup> June 2009, Brussels, Centre Diamant.

After the successful completion of the eInvoicing Workshop in 2006, a second phase of activities has been launched in 2007. The workshop has developed best practices on compliance, technologies and roaming in the area of European electronic invoices. The final deliverables will be presented in the Open Meeting on 18<sup>th</sup> June 2009 to reach out for public comments and review.

With the final deliverables, the CEN e-Invoicing Workshop has stimulated further standardization work in the domain of electronic invoices in Europe, with a view to supporting:

- the compliance of electronic invoice implementations to Council Directive 2001/115/EC and the national legislation as regards electronic invoices;
- the effective implementation of compliant electronic invoice systems in using emerging technologies and business processes, in business-to-business as well as in business-to-government scenarios; and
- the emerging network infrastructure of invoice operators throughout Europe.

The eInvoicing Workshop Phase II is mandated by the European Commission to provide advice on the European electronic invoice implementation process. With more than 60 companies actively participating, the Workshop has become the sounding board of the electronic invoice industry - comprising software companies, service providers, end-users as well as tax authorities (e.g. Spain, NL, UK, Italy, Romania).

**The Open Conference is free of charge !**

**For participation, please register before 10 June at: <http://www.cen.eu/isss/meetings>**

We would be very happy to meet you in Brussels.

Stefan Engel-Flechsig & Anders Grangard  
Chairmen of the Workshop
