

Appreciation Letter

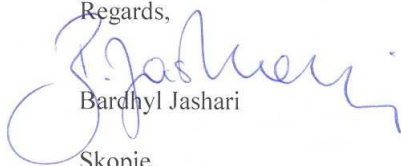

We would like to issue this letter of appreciation to Mr. Aleksandar Ugrinoski State Advisor at the Civil Service Agency of Republic of Macedonia, and express our gratitude for his contribution to the development of e-Government and Information Society in the Republic of Macedonia.

Mr. Ugrinoski was one of the presenters to our International Conference eSociety.Mk (www.e-society.org.mk) in Skopje. His presentation of the Apply-online e-government application was evaluated by the participants as one of the most interesting at the conference.

The successful implementation of the Apply-Online e-Government application paves the way for other Government Institutions to follow. The knowledge and experience gained is one of the most positive examples that Republic of Macedonia can also share with other countries, demonstrating proactive implementation of IT in society and e-Government services that increase transparency and effectiveness of the public institutions. And Mr. Ugrinoski is always more than ready to share that knowledge.

We are looking forward to the continuation of this excellent cooperation.

Regards,

Bardhyl Jashari
